## Section 1 - Introduction

Willamette Valley Community Health CCO (WVCH) is a health plan under the Oregon Health Plan (OHP). This directory provides a list of WVCH providers and it also includes basic tools that tell you how to get your covered services. For more detail about your coverage, please see your Member Handbook.

You will have to choose one of our plan providers from the following list to be your Primary Care Provider (PCP will be used in this list). You must get most of your medical care from your PCP. The “plan providers” in the list have agreed to provide you your health care. In most cases, your medical care is covered by WVCH. If you have been going to one plan provider, you do not have to keep going to that same provider. In some cases, you may get health care from non-plan providers.

### What is the service area for WVCH?

The counties in our service area are: Marion and Polk Counties in Oregon

### How do you find WVCH providers in your area?

You can use this list to find a plan PCP near you. Providers are listed by city from A to Z, then specialty and then name. You can also visit our website at [www.WVCHHealth.org](http://www.WVCHHealth.org) or call Customer Service.

In this list:

- MD= Medical Doctor
- DO= Doctor of Osteopathy, a medical doctor with special training in bone issues
- FNP= Family Nurse Practitioner
- PA= Physicians Assistant
- NMNP= Nurse Midwife Nurse Practitioner
- WHCNP= Women’s Health Care Nurse Practitioner
- OD= Optometrist

### What if you use non-plan providers to get covered services?

“Non-plan providers” are providers that are not part of WVCH. If you use non-plan providers, you may have to pay more. Care you get from non-plan providers will not be covered without a referral in place, except for ambulance services, emergency or

urgently needed care, and kidney dialysis.

### What should you do if you have bills from providers?

We may cover some services that you get from providers not in this list. We cover emergency care, urgent care and kidney dialysis when you are outside our area. We may also cover care that has been approved ahead of time by WVCH. Any time a provider asks you to pay for care, please call Customer Service. Ask the provider to bill us first. If you pay for covered services, we will pay you back for our share of the cost. If you get a bill for services, you can send the bill to us for payment. We will pay your non-plan provider for our share of the bill and will let you know what, if anything, you must pay.

### Getting care when you are away from the plan’s area

If you need care when you are away from our area, very few things are covered. The only care we cover outside our area is care for an emergency, urgent care, and kidney care. We may also cover care that WVCH has approved ahead of time. To find out more about emergent and urgently needed care, see Section 6. If you have more questions, please call Customer Service.

### Can the list of plan providers change?

Yes, WVCH may add or remove plan providers from our list. To get a current list of WVCH providers in your area, you can visit [www.WVCHHealth.org](http://www.WVCHHealth.org). You may also call Customer Service.

### Your rights to access and be part of your medical care

You have the right to get timely access to plan providers and to all services covered by the plan. Timely access means that you can get appointments and services within a reasonable period of time. You have the right to get full information from your providers when you go for medical care. You have the right to be part of making decisions about your health care. You also have the right to refuse care.

If you have questions about WVCH, please call our Customer Service Department  
503-584-2150  
Toll-free 1-866-362-4794  
TTY 711  
8:00 a.m. to 5:00 p.m. Monday - Friday

*\*\*\*The providers in this list may stop taking new patients. Please call the office to make sure they will take you as a patient.\*\*\**

## Section 2 - Choosing your Primary Care Provider (PCP)

### What is a “PCP?”

When you become a member of WVCH you must choose a plan provider to be your PCP. Your PCP is a health care professional who meets state requirements and is trained to give you basic medical care. You will get your routine or basic care from your PCP. Your PCP can also arrange the rest of the covered services you need. In most cases, you must see your PCP to get a referral before you see any other health care provider.

### How do you choose a PCP?

This list has the WVCH providers that will provide your health care. As a WVCH member you will choose a Primary Care Provider (PCP) from this list of providers. If you would like help finding a PCP, you may call our Customer Service Department. If you want to use a certain WVCH specialist or hospital, check with your PCP to make sure they can make referrals to that specialist or hospital.

*\*\*\*The providers in this list may stop taking new patients. Please call the office to make sure they will take you as a patient.\*\*\**

### Getting care from your PCP

Generally, you see your PCP for most of your routine health care needs. There are only a few types of covered services you can get on your own, without seeing your PCP first. Please see Section 4 for the type of services you can get on your own, without a referral. Your PCP can also help you arrange for other services you may need. This includes x-rays, lab tests,

therapies, specialists, hospital stays, and follow-up care. Your PCP also contacts other plan providers for updates about your care. If you need certain types of covered services or supplies, your PCP must give approval ahead of time. Your PCP must give you a referral to see a specialist. In some cases, your PCP will need to get prior approval. Since your PCP will provide and arrange your health care, you should have all of your past medical records sent to your new PCP’s office. The law requires us to protect the privacy of your medical records and personal health information. For more information about privacy, see your Member Handbook.

### How to change your PCP

You may change your PCP for any reason. Unless you are new to WVCH or your physician has left the plan, most PCP changes will start the first of the next month. You must contact the PCP before choosing them to be sure they will take you as a patient. Be sure to tell Customer Service if you are seeing certain providers or getting other services that need your PCP’s approval. Customer Service will help make sure that you can keep getting that care when you change to a new PCP. To change your PCP, call customer service. See Section 1 for phone numbers.

### What if your doctor or provider leaves WVCH?

Sometimes a doctor, specialist, clinic, or other plan provider you are using might leave the plan. If this happens, you will have to switch to another provider who is part of WVCH. If your PCP leaves WVCH, we will let you know, and help you switch to another PCP.

## Section 3 - Getting care from specialists

### How do you see a specialist?

When your PCP thinks that you need certain treatment they cannot give you, he or she will give you a “referral” to see a plan specialist. A specialist is a doctor who provides health care services for a certain disease or part of the body.

Some examples are specialists who treat only cancer, only heart problems or only bone problems. For you to see a plan specialist, your PCP will need

to get approval from WVCH. This is called “prior authorization.” You may not need a referral for some care, see Section 4.

If you don’t have approval before you get care from a specialist, you may have to pay for that care.

If the specialist wants you to come back for follow-up visits, be sure to check the original approval to see if these visits were approved. Each plan PCP has specialists they use for care. This means that the WVCH plan specialists you may use may depend on who you chose to be your PCP. If there are specialists you wish to see, find out if your PCP sends patients to these specialists. You can change your PCP if you want to see a specialist that your current PCP does not refer to. If you want to change your PCP, see Section 2. If there are specific hospitals you wish to use, find out whether your PCP and other doctors use those hospitals.

## Section 4 - Self-Referrals

### Providers you may see without a referral

You will get most of your routine care from your PCP. Your PCP can also arrange your covered services. If you get services from specialty providers without a referral from your PCP, you may have to pay for these services yourself. This includes specialty providers in your plan. In some cases, you can get services listed below without a referral from your PCP. “Self-referred” means you get services on your own. These services may be self-referred:

- Routine women’s health care, which includes breast exams, mammograms (x-rays of the breast), pap tests and pelvic exams. This care is covered without a referral from your PCP only if you get it from a WVCH network provider.
- Flu and pneumonia shots (from a WVCH provider).
- Emergency care, from providers in or out of our area. See Section 6.
- Urgent care when you are outside our area. For more information see Section 6.
- Kidney dialysis care when you are outside our area for a short time. Let us know before you go, so we can help arrange for you to have your care while you are gone.

- Covered vaccines (shots) (may be received from any provider)
- Routine pregnancy care
- Mental Health or Chemical Dependency Services. Contact Mid-Valley Behavioral Health at 503-361-2647 for a list of providers.
- Routine eye exams (Children under 20 and pregnant women over 21 only)
- Family planning

## Section 5 - What if you need medical care when your PCP’s office is closed?

### In case of a medical emergency

In an emergency, you can get care immediately. You do not have to contact your PCP or get approval. You can dial 911 for help by phone. You can also go to an emergency room, hospital or urgent care center near you. For more information about emergency or urgent care, see Section 6. Remember, whenever you need medical advice, call your PCP’s office. Someone will be there to help you all day and night, 7 days a week. If your PCP cannot talk to you, you can speak to the on-call provider and they will be able to direct your care.

### Medical issues that are non-emergent

If you need to talk to your PCP or get care when the office is closed, call their office anyway. There is always a provider on call to help you. For more information about what to do if you have an urgent need for care, see Section 6.

## Section 6 - Getting care if you have a medical emergency or an urgent need

### What is a medical emergency?

A medical emergency is a sudden, severe change in your health. You believe your health will be in serious danger if you don’t get help right away. This includes your unborn child’s health if you are pregnant.

Some examples of emergencies are:

- Broken bones

- Bleeding that does not stop
- Suspected heart attacks
- Major burns
- Passing out

### **What should I do if I have a medical emergency?**

If you have a medical emergency:

Get medical help as quickly as possible. Call 911 for help or go directly to the nearest emergency room. If you are not sure your condition is an emergency, call your PCP whenever you need medical advice. Someone will be there to help you all day and night, 7 days a week. If your PCP cannot talk to you, speak to the on-call provider and they will be able to direct your care. Follow up care is not an emergency. You should call your provider's office to schedule a visit for follow up care.

### **What is covered if I have a medical emergency?**

You can get covered emergency medical care whenever you need it, anywhere in the United States. Ambulance services are covered if you think you have a true emergency and other means of transport in the United States would make your health worse. If you are treated in the emergency room for something that you do not think is a true emergency, you may have to pay for the bill.

### **What is “urgent care?”**

“Urgent care” is a medical issue that needs treatment right away and happens after hours or when you are out of the service area. You may need medical care right away for an illness or injury and cannot wait until you can see your PCP. You can still get urgent care even if you knew about your illness or injury ahead of time, but it suddenly got worse.

### **What is the difference between a “medical emergency” and “urgently needed care?”**

“Medical emergency” occurs when you believe that your health is in serious danger. This is if you are in or out of our area.

“Urgent care” is when you need medical help for an illness or injury. Your health is not in serious danger. You cannot wait to see your PCP. You may also be outside of the service area.

### **Getting urgently needed care when you are in the plan’s service area**

If you have a sudden illness or injury and you are in our area, call your PCP’s office.. Whenever you need medical advice, call your PCP’s office. Someone will be there to help you all day and night, 7 days a week. If your PCP cannot talk to you, speak to the on-call provider and they will be able to direct your care.

You should get urgent care from WVCH network providers. In most cases, we will not pay for urgently needed care that you get from a non-plan provider while you are in the plan’s service area.

### **Getting urgent care when you are outside the plan’s service area**

Remember, whenever you need medical advice, call your PCP’s office. Someone will be there to help you all day and night, 7 days a week. If your PCP cannot talk to you, speak to the on-call provider and they will be able to direct your care. We also cover kidney dialysis care that you get when you are outside our area.

\*WVCH will be contacted if you use the emergency room for care you should get from your PCP. We will contact you by letter or by phone to offer help getting in to see your PCP.

Read your Member Handbook if you have more questions about your coverage.

*\*\*\*The providers in this list may stop taking new patients\*\*\**

*\*\*\*Please call the office to make sure they will take you as a patient\*\*\**

## DENTAL CARE ORGANIZATIONS

If you need to find a dentist your dental plan can help you. Your insurance card will list your dental plan. If you do not know who your dental plan is, please call Customer Service at 503-584-2150
