HOW TO USE THE FORMULARY

The medications on the Willamette Valley Community Health (WVCH) WRAP/D-Excluded Formulary are grouped into categories depending on the type of medical conditions that they are used to treat. Medications are listed in alphabetical order in the first column of the drug table. Brand name drugs are capitalized (e.g., LIPITOR), and generic drugs are listed in lower case italics, (e.g., *penicillin*). Drugs may be found by accessing the Index beginning on Page I-1.

GENERIC AND BRAND NAME MEDICATIONS

Willamette Valley Community Health covers both brand name and generic medications. The presence of a brand name medication in parentheses next to the generic equivalent is for informational purposes only, and is NOT an indication of coverage. For example:

<i>amphet asp/amphet/d-amphet</i> (Adderall XR)	PA	cap er 24h
---	----	------------

Coverage of multisource brand drugs listed on the WVCH WRAP/D-Excluded formulary that have generic equivalents available may require prior approval.

LEGEND

The following restriction and coverage notes may be found within the body of the WVCH WRAP/D-Excluded Formulary:

ABBREVIATION	DESCRIPTION	EXPLANATION
UTILIZATION MANAGEMENT RESTRICTIONS		
PA	Prior Authorization Restriction	Prior authorization is required before filling a prescription for this medication. Without prior approval, WVCH may not cover this medication.
QL	Quantity Limit Restriction	WVCH limits the amount of this medication that is covered per prescription, or within a specific time frame. Exceptions may be allowed with prior approval.
ST	Step Therapy Restriction	Coverage for this medication may require you to have a claim history indicating you have tried a different medication in the past.
OTHER COVERAGE NOTATIONS		
OTC	Over-the-Counter	WVCH will cover prescriptions written for over-the-counter drugs listed on the formulary.
